Signature IM Ingredients

Amino Blend

(Arginine + Ornithine +
Lysine + Citrulline)

These aminos may help maximize performance by supporting the function of healthy joints and muscles.

B12

Aids in energy production and red blood cell formation.

B Complex (B1+B2+B3+B5+B6)

This family of B Vitamins may increase energy and reduce the body's response to stress.

Lipo

(Methionine + Choline)

These amino acids may help boost the body's metabolic power.

Tri-Immune

(Glutathione + Zinc +
Vitamin C)

This blend of nutrients work together to help build your resilience and recharge your body's natural defenses.

Toradol

A nonsteroidal anti-inflammatory drug (NSAID) that may help relieve mild to persistent discomfort, headaches and migraines.

Zofran

Reduces feelings of nausea and may prevent vomiting.

NAD+

Nicotinamide adenine dinucleotide (NAD+) is a coenzyme present in almost all cells in your body. Its main purpose is to fuel metabolic reactions forward. Helps people suffering from addiction, age-related diseases, and chronic fatigue.

- Gain cognitive edge
- Boost mood & energy level
- Improve heart health, strength & endurance
- Accelerate the healing of muscles and tissues

Biomarker Assessments

Micronutrient + Antioxidant Assessment

Evaluates your blood to uncover insufficiencies of vitamins, minerals, aminos, and fatty acids. Our assessment measures the function of 52 nutritional components.

Biomarker Bundle

MethylDetox Assessment

Evaluates your DNA for mutations that may indicate an over or under compensation in essential bodily functions. Tests critical genes involved with detoxification and the metabolic cycle.

Food Sensitivity Test

The Alcat Test measures proinflammatory immune cell responses to specific foods, additives, and other dietary items.
150 or 250 count food panel.
